## **DETAILED ACTION**

### ***Response to Amendment***

1. Applicant's amendment filed on March 30, 2007 has been entered. Claims 9 and 19 have been amended. No claim has been cancelled, or added. Claims 1, 3-7 and 9-21 are still pending in this application, with claims 1, 9, 18 and 19 being independent.

### ***Allowable Subject Matter***

2. Claims 1, 3-7 and 9-21 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Applicant teaches a vehicle lamp including first and second light emitting diodes arranged at different locations, a lamp lens, and a reflector having a plurality of alternate paraboloid first and second reflection sections, each section reflecting light from a respective one of the LED toward a same output direction. A linear Fresnel lens is located between each LED and the corresponding reflection surface, the Fresnel lens mostly transmitting the light from the LED in a cross section including the reflective surfaces, while refracting the light from such LED as almost parallel light in a cross section orthogonal to the light reflection direction of the respective surfaces. In a second embodiment, the lamp lens includes outer and inner lenses; with the inner lens, including a plurality of alternatively provided concave and convex portions corresponding to the ranges in which reflected light from the reflection surfaces are incident. A third embodiment features only the first LED, and the second reflective

surfaces are arranged to follow along and parallel a segment connecting the light emission surface of the light emitting diode to the boundary between the first and second reflective surfaces, to not reflect light from the LED, but to reflect outside light incident from the lamps lens.

4. No prior art was found teaching individually, or suggesting in combination, all of the features of the applicants' invention, specifically the structure of the claimed linear Fresnel lens or the claimed inner lens, in combination with the other recited structural limitations of the claimed vehicle lamps.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
